DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to compounds of formula I, process of making and use thereof.

Group II, claim(s) 12, drawn to compounds of formula II.

Group III, claim(s) 13, drawn to process of making compounds of formula II.

Group IV, claim(s) 14, drawn to the use of compounds of formula II for treatment of androgen-dependent diseases.

Group V, claim(s) 15, drawn to the use of compounds of formula I as starting products in the production of compounds of formula III.

Group VI, claim(s) 16, drawn to compounds of formula III.

Group VII, claim(s) 17-20, drawn to a process of making compounds of formula III.

Group VIII, claim(s) 21, drawn to the use of compounds of formula III as an aromatase or 5 α -reductase inhibitor.

Group IX, claim(s) 22-23, drawn to compounds of formula Ia.

2. The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The compounds of the instant invention contain a steroidal moiety which does not define a contribution over the prior art. The substituents, unsaturation etc. of the

steroidal moiety vary extensively and when taken as a whole result in vastly different compounds. Accordingly, unity of invention is lacking and restriction of the invention in accordance with the rules of unity of invention is proper.

3. Applicant is required, in reply to this action, to elect a single species from under the elected Group, for search purposes only. The reply must also identify the claims readable on the elected species, including any claims subsequently added.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
